EQUIPMENT

**FASTMELT**  
**650**

## THERMOPLASTIC MELTING KETTLE

The FastMelt 650 is a completely self-contained thermoplastic melting system that holds 650 lbs. of material. It's one of the most versatile supply systems with the ability to be placed in the back of a standard pickup, flat-bed truck, or a work trailer for easy transport. For a highly efficient striping system use with any ThermoMark applicator.

### Exclusive Features

- Fills an applicator in minutes
- Melts and holds up to 650 lbs. at 400°
- Fits in the back of a pickup
- Compact (48" w x 42" d x 51" h)
- Lightweight (950 lbs. empty)

# FASTMELT 650

## Specifications

Material Capacity	650 lbs. / 68 kg
Heating System	Propane
Empty Weight	950 lbs.
Loaded Weight	1,700 lbs.
LPG Fuel Tank	100 lbs.
Kettle Burner	Ransome
Gas Control	Chromalox
Hydraulic System	Two Stage high / low hydraulic pump
Spool Valve	HC-M45 directional control with relief
Hydraulic Reservoir	7 gal with return filter
Engine	Briggs & Stratton Vanguard (LP) - 305cc (10hp) Electric Start
Construction	Modular design
Material Agitation	Direct drive serrated anchoe agitator, adjustable speed control
Material Temperature Gauge	50° – 550°
Dimensions (L x W x H)	48" x 42" x 51"
